

## TECHNICAL TRAINING PROGRAM FOR BULL'S TRENCH KILN (BTK) FIREMEN

*Venue:*

Paryavaran Evam Prodyogiki Utthan Samiti (PEPUS)

Paryavaran Nagar, Hawelia, Jhusi

Allahabad - 221 506

*Date:*

24-25 August, 2006

Under the CoSMiLE- brick project, TERI is in the process of developing knowledge hub of brick fraternity in East Uttar Pradesh with a vision to promote knowledge sharing and learning among them. In order to develop technical and social competencies among the firemen community, series of capacity building programs under two streams of training are formulated, one technological and other social. These techno-social interactions would encompass various facets of knowledge, information, energy, environment, ownership, solidarity etc. First technological training program of the proposed capacity building series was organized at Allahabad during August 24-25, 2006. The training program was attended by 45 members of firemen community (32 firemen and 13 master firemen) from District Allahabad, Pratapgarh and Fatehpur. The entire field teams from both local NGOs (Lokmtra from Raibarelli and Pepus from Allahabad), and other sectoral experts also participated in the program. The participation certificates were also distributed among the firemen.

The social training program of the series will be organized at Pure Kalandhar (Distt. Pratapgarh) during September 6-8,2006 and the agenda of the program will be uploaded shortly.

Inaugural session

Presentation by firemen
